November Newsletter

Start Time: 08:50

Members in attendance: 13

Secretary Report: More updates on the web page. We need articles to place in web page, building tips, product reports etc. etc.

If you have moved or changed your Email address please let me know.

If you would like to contribute to the newsletter you can either Email me or send me a letter with the item or items you would like to have published in the newsletter or on the web site. I'm always looking for more content for the newsletter and the web site.

As you have probably noticed the web site is experiencing difficulties. My hard drive crashed and I had to install a new one and try to transfer as much of the files from my old hard drive to the new one. Some of the files were corrupted and I'm working on getting everything back up, some of the corrupted files were for the web site. I have uploaded the home page several times but it still keeps coming up with errors. I have tried to completely delete the web site and build it back up but it keeps fighting me every inch of the way, so please bear with me while I try and figure out the problems. If you have any ideas please let me know.

Club meeting itinerary: Voting for club officers.
Next years calendar of events.

Up coming Event(s): November 16 --- Voting for club officers and club meeting.

Old Business: The AMA Ontario Convention is coming up in January 9 – 11. The club has decided to attend again and to raffle off another trainer. The people attending the booth for the club will be Rick Ogden, Pat Morgan and Tom Bright. If you would like to help out at the booth feel free to come on by.

I asked for feedback on the breaks being taken during the races and everybody is pleased with the results so we will keep the breaks between heats during the races.

Speaking of races it was brought forward for a vote by Leon Sylvester that we include Tail dragger aircraft and wheel pant equipped aircraft. Both proposals passed so we will be including these aircraft in the Trainer races.

If you have noticed the tables in the picnic areas are now painted. This was done by Henry Grenier so we all need to give him a BIG thank you.

New Business: The rent for the field has been paid. The cables across the run way will be worked on in the near future, poles to raise the cable will be installed along with the cable itself being repaired or replaced. The cost to Hydro seed the grass area will be \$350.00. The club meeting for the 9th of November has been moved to the 16th of November to make room for the swap meet and Cub fly.

The club officer nominations are:

Harry Hill ---- Pres. Terry Talkington ---- Vice Pres. Rick Ogden ---- Treasurer

Richard Rittmiller ---- Secretary, news letter editor, web master.

Voting will be at the November 16th meeting. If you want to send in a vote place it in a sealed envelope, give it to one of the club officers, it will be opened at the November 16th meeting and counted.

The Christmas dinner will be at the Redlands Denny's on December 4th.

Event Report:

Gilman springs float fly at Lake Hemet.

This report was given by Rick Bass:

Lee, Deanna and I attended the float fly that was put on by the Hemet club there looked to be about 6 RVs/Trailers plus several that were camping in their vans. I believe there were about 25 to 30+ Registered pilots on Sat alone with many scale water aircraft. I had a blast and as far as I could tell Lee and Deanna enjoyed the day as well. I have a video of the day it's an hour long and if any one would like to get a copy of it let me know Rick

Here are some pictures of the float fly.

And Terry's favorite

New member(s): None this month.

Model of the Month: None this month.
